SITE LEADER PLAYBOOK

A week where the region never has to ask

You own the site: coverage, teacher relationships, and closing the loop in Pearl. These routines keep flags from reaching the region and keep scholars in their sessions.

Daily

MORNING · BEFORE FIRST BLOCK
Coverage check: who's out, who covers, which sessions to regroup or cancel **with a reason**.

MIDDAY
Walk into at least one session. Check that lesson plans match what's happening.

END OF DAY · 5 MINUTES
Pearl sweep for today: no session left **Scheduled/Incomplete**, no blank missed reasons.

Weekly

MONDAY
Open **Site Leader Flags** and the Support Report for your school.

WEDNESDAY
Flags cleared, or escalated with the four-line message.

THURSDAY
Lesson plans checked for next week.

FRIDAY
Teacher touchpoint on pull-outs and schedule changes.

Every two weeks

PM CHECK-IN · YOU BRING THE SNAPSHOT
What's working · your top two flags · what you already did · what you need from your PM.

What's on your flags list, and how to stop it

FLAG	PREVENT IT BY
Session left Incomplete	Tutors close every session before leaving; your end-of-day sweep.
Missed reason left blank	"Scholar Unavailable" when unsure. Never blank.
Cancelled with no reason	Pick the reason *while* cancelling. Pearl locks it afterward.
Whole group logged as missed	Tutor tells you right away; you cancel in Pearl before the session.
Repeat unavailable scholar	2+ in two weeks: ask the teacher at a break or check school attendance.
Uncovered session	Morning coverage check; tutors report absences before the session.
Scholar kept in class	Talk with the teacher this week. If it continues, escalate to your PM.

THE END-OF-DAY PEARL SWEEP

1. Filter Pearl to **today** and your school.
2. Anything still **Scheduled**? Find the tutor before they leave.
3. Any scholar **Missed** with no reason? Fix it now while they remember.
4. Whole group out? Make sure it was **cancelled with a reason**, not logged as missed.
5. Any tutor comment marked for admin? Read it today.

ESCALATE TO YOUR PM WHEN

- **Anyone is unsafe:** same day, after the school's process
- **You can't cover a session:** before it starts
- **It happened twice** and your fix didn't hold
- **It needs a principal's decision:** schedule, room, or a teacher pattern
